OTHER IMPORTANT NOTICES:

The Fort Fiji Daily Rate Property Protection Program is supplemental program designed to respond where underlying Homeowners coverage does not, as evidenced by policy exclusions as they relate to short term rental activity and declined claims. It is not a replacement for homeowners insurance or commercial general liability insurance.

The Fort Fiji Daily Rate Property Protection Program only responds where the property owner has, at his/her sole cost and expense, obtained and kept in full force and effect, fire and property damage and liability insurance in an amount equal to that which would be maintained by a prudent property owner, acting reasonably, on the advice of professional insurance brokers.

Only a licensed insurance broker can analyze your personal insurance risk, discuss your insurance needs and advise you on insurance coverage. For questions on home insurance, it is highly recommended to consult a licensed professional.
